**Event: Group discussion : " Women Empowerment and gender Justice"**

**Date:** 26<sup>th</sup> September 2022

**Duration:** 2 Hours

**Number of participants:** 98 Students

**Branches:** IT A,B

**Faculty Coordinator:** Dr.S.Ammani Reddy

**Report of the event**

"Women Empowerment and Gender Justice are interconnected concepts that play a crucial role in promoting equality, social justice, and human rights. Empowerment refers to the process of increasing individuals' abilities, resources, and capacities to make choices and control their own lives. Gender justice, on the other hand, focuses on ensuring fairness and equity for people of all genders, particularly addressing the historical and systemic inequalities faced by women and marginalized gender groups.

All the students had a discussion on

" Despite progress in advancing empowerment and gender justice, significant challenges persist, including deep-rooted patriarchal attitudes, inadequate legal protections, lack of access to resources and opportunities, and persistent inequalities in power and decision-making. Moving forward, it is essential to adopt a holistic and intersectional approach that addresses the complex interplay of factors contributing to gender inequality. This includes strengthening legal frameworks, investing in education and healthcare, promoting economic opportunities, amplifying marginalized voices, and fostering partnerships between governments, civil society, and the private sector. By prioritizing empowerment and gender justice, societies can create more inclusive, equitable, and sustainable futures for all individuals, regardless of their gender.

**Event: Elocution Competition : " Gender and Family Economics"**

**Date:** 14<sup>th</sup> December 2022

**Duration:** 2 Hours

**Number of participants:** 88 Students

**Branches:** Cse c,IT-,B

**Faculty Coordinator:** Ms.G.L.Sirisha

**Report of the event**

The elocution on gender and family economics was held with the aim of exploring the intersection of gender dynamics and economic factors within family structures. The event gathered a diverse audience, including students and teachers interested in understanding and addressing gender disparities in economic decision-making within families. The speaker provided insights into various aspects of gender and family economics, highlighting how traditional gender roles and stereotypes often influence financial decisions within households.

The gendered division of labor and how traditional gender roles often dictate who assumes responsibility for earning income versus performing unpaid domestic labor within families. Participants explored the ways in which gender norms can impact economic outcomes for individuals and families. Furthermore, cultural and social norms play a significant role in shaping attitudes towards gender roles and family economics. The elocution also touched upon the role of policy interventions in addressing gender disparities in family economics. Overall, the elocution provided a platform for meaningful dialogue and reflection on the complex interplay between gender dynamics and family economics.

**Event: Poster Presentation : " Gender Stereotypes"**

**Date:** 23<sup>rd</sup> April 2023

**Duration:** 2 Hours

**Number of participants:** 60 Students

**Branches:** EEE

**Faculty Coordinator:** Ms.T.Mounika

**Report of the event**

The poster presentation event aims to raise awareness and provoke discussion on the pervasive nature of gender stereotypes in society. The presentation sought to highlight the impact of these stereotypes on individuals' behaviors, choices, and opportunities, particularly within the context of education, career aspirations, and social interactions. It featured visual representations of common gender stereotypes, including depictions of traditional gender roles, biased perceptions of masculinity and femininity, and examples of how these stereotypes manifest in everyday life. By raising awareness and promoting critical thinking, the presentation aimed to contribute to efforts aimed at fostering inclusivity, diversity, and equality in society.

All the students participated with great enthusiasm on gender stereotypes and their influence on perceptions and expectations. They explored how gender stereotypes shape career choices and aspirations, limiting opportunities for both men and women. In addition to that they discussed the role of media, advertising, and societal norms in perpetuating gender stereotypes and the impact of gender stereotypes on mental health, self-esteem, and identity development. Analyzed the economic implications of gender stereotypes, including the gender pay gap, occupational segregation, and barriers to career advancement. Subsequently found strategies for challenging and dismantling gender stereotypes through education, advocacy, and promoting gender equality.

A Guest lecture titled "Role of Human Values in the 21st century- Enhancing Career opportunities" was organized by BS& H on 31<sup>st</sup> April, 2022 from 3 pm to 4 pm for students. In the rapidly evolving landscape of the 21st-century workplace, the significance of human values cannot be overstated. Beyond technical skills and qualifications, employers increasingly prioritize candidates who embody core human values. This report delves into the critical role human values play in enhancing career opportunities in today's professional environment.

In conclusion, Sir conveyed few more inputs on human values are instrumental in enhancing career opportunities in the 21st century. Whether it's through ethical leadership, effective collaboration, strong communication skills, adaptability, customer-centricity, innovation, or personal branding, individuals who prioritize human values are well-positioned to succeed in today's dynamic and competitive job market. By embodying these values, individuals not only advance their careers but also contribute to creating a more ethical, inclusive, and prosperous professional landscape.

**Event: Guest Lecture: "Migrant and refugee women and girls"**

**Date: 21<sup>st</sup> April 2023**

**Duration: 1 Hour**

**Number of participants: 95 Students**

**Branches: CSE(AIML),EEE**

**Faculty Coordinator: Ms.V.Malathi**

**Report of the event**

Migration and refugee experiences for women and girls are marked by challenges stemming from conflict, persecution, and economic instability. Fleeing in search of safety, they encounter risks of exploitation and violence during transit, emphasizing the need for safe migration routes and legal protections. In refugee camps, overcrowded conditions can expose them to gender-based violence, necessitating gender-sensitive security measures. Access to education, healthcare, and economic opportunities poses significant hurdles, requiring inclusive policies. Moreover, the psychosocial impact of displacement on mental health underscores the importance of support services. A holistic, intersectional approach is crucial, recognizing diverse identities, ages, and backgrounds to ensure the safety, well-being, and integration of migrant and refugee women and girls into new societies.

Facilitating the well-being of migrant and refugee women and girls demands pragmatic strategies. Guaranteeing accessible education includes tailoring language and integration programs to their unique requirements. Furthermore, elevating healthcare services requires targeted initiatives that address the specific health needs of women. The provision of psychosocial support recognizes the toll on mental health due to displacement. Thoughtful awareness campaigns should

underscore shared humanity, fostering empathy within host communities. Empowering these women economically through tailored job training and opportunities paves the way to self-sufficiency. The efficacy of these measures rests on collaborative endeavors among governments, NGOs, and local communities, ensuring a comprehensive and supportive approach for the well-being and integration of migrant and refugee women and girls.

**Event Report**

**Event: Role Play : "Gender Balance in Leadership and decision making"**

**Date: 24<sup>th</sup> August 2023**

**Duration: 2 Hours**

**Number of participants: 68 Students**

**Branches: CSE A**

**Faculty Coordinator: Dr.S.Ammani Reddy**

**Report of the event**

"Gender balance in leadership and decision-making" remains a critical issue in today's society, prompting a series of questions about the disparities that persist. Why is there a persistent underrepresentation of women in top leadership roles across various sectors? Is it a result of systemic biases, limited opportunities, or deep-rooted stereotypes? These questions underscore the need for a comprehensive understanding of the factors contributing to the gender gap in leadership and decision-making positions. As we navigate through this complex issue, it becomes imperative to explore how these disparities impact organizational dynamics, innovation, and overall societal progress.

**Key points covered in Group Discussion -**

In our group discussion, students shared a range of insights and ideas on addressing gender imbalance in leadership. The consensus was on the importance of fostering an inclusive environment that promotes equal opportunities for all. This involves implementing policies that challenge unconscious biases in hiring and promotions, providing mentorship programs for aspiring leaders, and establishing transparent evaluation criteria. Additionally, there was a call for educational initiatives that dismantle gender stereotypes from an early age, encouraging both boys and girls to pursue leadership roles. Students recognized the urgency of collaborative efforts from both individuals and institutions to create a more equitable landscape where diverse perspectives thrive in leadership and

decision-making spheres. In conclusion, breaking gender barriers in leadership is more than achieving parity; it's a dynamic shift towards environments where diverse voices not only coexist but drive innovation. Effective leadership transcends gender, propelling us into a future marked by equity, dynamism, and limitless possibilities.
