About the Institution

BVRIT HYDERABAD College of Engineering for Women is established in the Year 2012 under the flagship of Sri. K V Vishnu Raju, Chairman with an intake of 360 Students. BVRIT HYDERABAD is promoted by Sri Vishnu Educational Society with the aim to enable the girl students to unchain barriers to reach greater heights. BVRIT HYDERABAD has the distinct advantage of good pedigree and proven excellence in providing quality engineering education. The institute is running with a missionary zeal to develop the Institute as 'Centre of Excellence' and to train human resources to international standards in the area of Engineering & Technology. Presently, the institute offers UG courses in ECE, CSE, and IT. The institute offers excellent placements in various MNCs such as Amazon, John Deer, Bosch, Microsoft, Capgemini, Latent view, Urjanet, NTT Data, ZOHO, ADP, Seneca Global, Medlife etc.

About Department

Department of CSE offers B.Tech. course with an intake of 120. The department is well supported by experienced teaching faculty and well established laboratories. Department is intending to provide more practical exposure beyond the syllabus deliberated.

Department Vision

To develop women as technocrats, researchers and entrepreneurs in the field of computer science and engineering.

Department Mission

- To impart quality education in Computer Science and Engineering by means of learning techniques and value-added courses.
- To inculcate professional excellence and research culture by encouraging projects in

cutting- edge technologies through industry interactions.

- To build leadership skills, ethical values and teamwork among the students.
- To strengthen the collaboration of department and industry through internships, mentorships and professional body activities..

Target Audience:

This Programme is open to all inter-disciplinary students. Selected students will notified through mail

About Andriod:

Android is a Linux based operating system it is designed primarily for touch screen mobile devices such as smart phones and tablet computers. The operating system have developed a lot in last 15 years starting from black and white phones to recent smart phones or mini computers. One of the most widely used mobile OS these days is android. The android is software that was founded in Palo Alto of California in 2003.

The android is a powerful operating system and it supports large number of applications in Smartphones. These applications are more comfortable and advanced for the users. The hardware that supports android software is based on ARM architecture platform. The android is an open source operating system means that it's free and any one can use it. The android has got millions of apps available that can help you managing your life one or other way and it is available low cost in market at that reasons android is very popular.

Registration Fee

Registration Fee Rs.1000/-

Location
