

BVRIT HYDERABAD College of Engineering for Women
Department of Basic Sciences & Humanities
Name of the Activity: Chart Preparation

Subject Name: Engineering Graphics

Faculty Name: Sai leela Vanapalli

Topic: Applications of Engineering Graphics

Date of Conduction: 15th September 2018

Class / Year / Semester: ECE-A I Year I Sem

Brief Write-up

Activity method is a technique adopted by a teacher to emphasize his or her method of teaching through activity in which the students participate rigorously and bring about efficient learning experiences. It is a method in which the student is actively involved in participating mentally and physically. Learning by doing is the main focus in this method.

In the process of learning, they experience, memorize and understand. Students need to be provided with data and materials necessary to focus their thinking and interaction in the lesson for the process of analyzing the information. With continued practice in these processes, students learn not only the content of the lesson but also develop many other skills.

After completion of , Chart preparation activity has been conducted on 15th September 2018 to remember and understand the concept better and learn applications in Engineering Graphics subject.
