Brief Write-up

Awareness program to control Soil Pollution – Under this program we instructed students to prepare Best out of Waste, which is coming from their home. They should not use the new items. Students participated very well and come out with innovative products from the waste materials like used Coke bottles, Plastic bottles, Disposable items, old news papers, card boards, unused batteries, dry leaves and stems etc. Following are the products prepared by the students like: Pen Stand, Flower Vase. Bangles and ear rings, Wall Hanging, Decoration Items, Lamp, Show items etc.
