

BVRIT HYDERABAD College of Engineering for Women

Department of Basic Sciences & Humanities

Name of the Activity: Video Lecture Creation

Subject Name: Engineering Chemistry

Faculty Name: Ms.V.Malathi

Topic: UNIT I Molecular structure and Theories of Bonding
(Quantum numbers and Principles of Atomic Structure)

Date of Conduction: 7th September 2018

Class / Year / Semester: IEEE / 2018-19 / I Sem

Brief Write-up

Students should have the basics of Atomic structure for better understanding of this unit. After the discussion with student, they were grouped in teams having maximum 5 members for presentations through power point for 20 minutes. Teams have prepared and presented in class on **quantum numbers and principles of atomic structure** .This activity made them to learn preparation of power point, organized content delivery, time management, overcome stage fear.

Name of the Activity: Preparation & Presentation through CHARTS

Topic: UNIT II Water and its Treatment

Date of Conduction: 4th September 2018

Brief Write-up

All the students are individually made charts on various topics of Unit II .Through this activity they have learnt creative drawing & some of the students presented prepared charts on water treatments.

Name of the Activity: Making Model

Topic: UNIT II Municipal water treatment

Date of Conduction: 12th September 2018

Brief Write-up

A team of 4 students prepared model on Water purification at municipalities.
