Name of the Activity : Role play

Subject Name :Operating Systems
Faculty Name : Dr.Aruna Rao S.L
Topic : Process States
Date of Conduction : 09-02-2019
Class / Year / Semester: II IT / 2018-19 / II Sem

Brief Write-up

Groups of students were involved in presenting the role play. This task is to demonstrate different CPU Scheduling algorithms. The task is assigned to 12 students one week earlier and they were discussed among themselves and formed as three different groups and demonstrated all the First Come First Serve, Shortest Job First, Priority and Round Robin scheduling algorithms with pre-emption & without pre-emption by enacting .This activity is made them to understand the concept very easily. The peer students also learned very well this topic after watching the role play.

Name of the Activity : Chart Preparation

Subject Name : Machine Learning
Faculty Name : Ms. Lakshmi Prasanthi Malyala
Topic : Classification of Machine learning algorithms
Date of Conduction : 28-01-2019
Class / Year / Semester: IV IT / 2018-19 / II Sem

Brief Write-up

Groups of students were involved in preparation of charts related Classification of Machine learning algorithms. In each group contains 4 students. Every group is assigned a task of preparing a chart on the specified topics. The chart prepared by them contains a specific Machine learning algorithm. After completion of the chart preparation students were distributed to different groups and demonstrated to other group students. These charts were used as a quick reference for the students during preparation for external examinations.

Name of the Activity : Technical Quiz (Group activity)

Subject Name : Database Management Systems
Faculty Name : Mr.A.Rajashekar Reddy
Topic : UNIT – I
Date of Conduction : 28/12/2018
Class / Year / Semester : II- IT / 2018-19 / II Sem

Brief Write-up :

Technical Quiz is a group activity in which the students are grouped with 4-5 per each team. The students have to select one topic each from the unit of the subject. The teams are given numbers. The teams are randomly picked, they occupy the dais and ask the questions related to the chosen topic. The other teams have to answer, based on answering the points will be given. It goes on with all other teams. This activity is useful to cover all the topics related to a particular unit, with good exposure of the content. The event consumes one class time I,e 50 minutes. There has been a lot of enthusiasm by the students for participation and the students got good understanding of the subject.

Name of the Activity : Role Play

Subject Name : Database Management Systems
Faculty Name : A.Rajashekar Reddy
Topic : Database Architecture
Date of Conduction : 28/12/2018
Class / Year / Semester : II- IT / 2018-19 / II Sem

Brief Write-up

Role Play is an activity in which the students are played as some roles or characters based on the topic learnt. In this activity, Each Component (role) of Database is played by a student (Storage Manager, Query Processor, Database, DB Users). The functionality is explained by the dialogue. All Students will observe the play with good understanding. This activity is useful to cover all the topics related to a particular unit, with good exposure of the content. The event consumes one class time i.e 50 minutes. There has been a lot of enthusiasm by the students for participation and the students got good understanding of the subject. This activity can achieve Enhanced understanding levels of students, High level class room attention and misconception elimination.

Name of the Activity: Demonstration by students

Subject Name : Predictive Analytics
Faculty Name : A.Rajashekar Reddy
Topic : Regression vs Segmentation
Date of Conduction : 23/01/2019
Class / Year / Semester : IV- IT / 2018-19 / II Sem

Brief Write-up

In this activity, students are given the topic in advance, to prepare on it for demonstration in the class to entire audience. Everyone should prepare on the topic, and are said that any 4 students are randomly picked and asked to to give demo. After couple of days, in the class 4 students were picked randomly and asked to demonstrate. Each demo has 10-15 min time. Every student performed on their own way. During their presentation observation is done and after all presentations, I summarized the topic with a great clarity of the topic. There has been a lot of efforts by the students to prepare on their own and the students got good understanding of the subject. This activity can achieve Enhanced understanding levels of students and misconception elimination.
