About the Department

The Department of Computer Science and Engineering was started in the year 2012 with an intake of 60. The Department has well trained faculty members with expertise in various areas and an outstanding teaching experience.
The Department has well-equipped classrooms and computer laboratories with high-end systems. The systems are connected through LAN & Wi-Fi.
The main focus of the department is to churn out graduates with strong fundamentals in Computer Science domain.

VISION

Develop women as technocrats, researchers and entrepreneurs in the field of computer science and engineering.

MISSION

1. To impart quality education in Computer Science and Engineering by means of learning techniques and value-added courses.
2. To inculcate professional excellence and research culture by encouraging projects in cutting-edge technologies through industry interactions.
3. To build leadership skills, ethical values and teamwork among the students.
4. To strengthen the collaboration of department and industry through internships, mentorships and professional body activities.

Program Educational Objectives

1. Adapt emerging technologies to contribute to the technical innovations for the progressive development in their respective fields.
2. Productively engage in multidisciplinary research areas by applying the basic principles of engineering sciences.
3. Demonstrate strong technical skills to bring out novel designs/products to address social & environmental issues.
4. Exhibit professional attitude, teamwork and practice code of ethics.

Message from HoD

Greetings from the Department of CSE, BVRIT HYDERABAD College of Engineering for Women. It gives immense pride & pleasure to lead the ComputerScience and Engineering Department of this esteemed & prestigious institution.

The department has specialized faculty in all important areas of Computer Science such as Image Processing, Computer Networks, Natural Language Processing, Cloud Computing and Data Mining etc...

The department works in the direction of nurturing the faculty and exposing them to world class infrastructure by proving world class training outside college campus. We provide ample opportunities to our faculty and students under the Departmental Association through in house trainings, workshops guest lectures and non-technical activities. Our department consists of various computer laboratories to train in Data Structures, Java, Compiler Design, Data Base Management System, Python like new technology giving the scope to all students for hands-on-experience individually, which will increase the confidence to face the practical problems in the field of computer science.

Industrial Visits and Internships are regularly planned to improve the practical knowledge of the students and have an interaction with the industry people. We continue to play a leading role in our discipline which leads us towards creating innovative and effective professional graduate community which would be vivacious and provide continuous learning. I extend my warm wishes to all budding Software Engineers.
