Report :

World Environment day 2023 was a global effort to #Beat Plastic Pollution
World Environment Day

2023 was a reminder that people's actions on plastic pollution matters. The steps governments and business are taking to tackle plastic pollution are the consequence of this action. It is time to accelerate this action and transition to a circular economy.
It is time to #Beat Plastic Pollution.

The nature club of Bvrith has conducted a walkathon program on bringing awareness among people about plastic pollution on environmental day 2023. The walkathon started at 8:00 am in the morning to 10:00 am a group of 40 students of Bvrith and of 4 faculty members participated in the walkathon. Starting at the college gate ,the rally went on upto the water bodies near our college. The members of The Municipal Corporation of Nizampet also participated in the program .The Municipal Corporate officers gave awareness about the 2023 Theme beat plastic pollution and encouraged the students to collect the wastage near the water body present there. The Theme for World Environmental day on june 05,2023 focused on solutions to plastic pollution under the campaign BeatPlasticPollution.

The world is being inundated by plastic .More than 400 million tons of plastic is produced every year,half of which is designed to be used only once. Of that, less than 10 percent is recycled. An estimated 19-23 million tons end up in lakes, rivers, and seas
