CSE -
Young
Promising
Engineer
Award
(YPEA)
for Batch
- 2018**

My journey of last 4 years in BVRIT HYDERABAD College of Engineering for Women has been a learning and skillful experience. Right from my first year, i.e., in 2018, I have been part of WISE program where we had the chance to learn and gain experience of really prominent technologies. This training helped me become extremely confident and further take up any kind of challenge with ease. With the wonderful opportunities that our college provide us with, I had the incredible chance to intern at Dell Technologies for 2 months, in my third year, where I was able to apply the skills I learnt in our college to complete my internship successfully. I also had the exciting opportunity to serve as the captain of our college Throw ball team in my final year. All this wouldn't have been possible without the immense support and motivation of our Principal Madam **Dr. K. V. N. Sunitha** and all of our faculty. I also had the opportunity to publish a research paper at ICACECS-2022, under the guidance of our project guide and HoD sir of CSE Department **Dr. K. Srinivasa Reddy**. I would also like to thank the whole placement team of BVRITH for always believing and providing us with amazing opportunities. I am very grateful that I have been a student of BVRITH.

Best Wishes
